

Genesis

Kickstart your biotech entrepreneurship journey!

Nuclease Baltics invites you to take part in a 12-week online program Genesis, designed to transform innovative ideas into thriving biotech ventures. This hands-on program teaches the fundamentals of biotech venture creation while equipping the participants with the mindset, skills and network needed to thrive in this field. With virtual meetings once a week, Genesis brings together aspiring entrepreneurs from across the Baltics, providing expert lectures, personal mentorship, and access to a dynamic community of industry leaders.

- Applicants from various fields (including life sciences, business, medicine etc) are welcome to apply
- No previous experience in bio-entrepreneurship required
- Teams will be formed in the beginning of the program
- Exciting prizes for winners
- Participation is free, but spots available are limited

All you need is enthusiasm and willingness to invest your time. Don't miss the chance – take the next step toward shaping the future of biotechnology in the Baltics!

Apply here before January 30th: bit.ly/44ZMfJ3
